

Please do not allow the Indiana "No Call" list program to be altered as requested by the Banking Association. If I want contact with them I will instigate it. I don't need/want them calling me to offer this "deal" or that "deal". Since the "No Call" program became effective it is nice to know that when you answer the phone the chances are good that it is someone you want to talk to; not someone selling something. Banks are no better, should not be excepted.
